

Press release

PORR S.A. to build Izabelów railway stop on line 14

Warsaw, 12.01.2023 - The Government Railway Stop Programme is one of the main pillars of the strategy expected to reduce transport exclusion. Under the initiative, train stops are being built and upgraded, allowing the railway to reach more towns. As part of the programme, PORR S.A. will build the new Izabelów station on line 14. The value of the contract is PLN 7,670,097.56.

Under the agreement signed in mid-December 2023, PORR will carry out two tasks. As a first step, it will build a new passenger stop Izabelów, on railway line 14. It will consist of two 150m-long single-edge platforms, together with the preparation of a 50m reserve for the future expansion of the stop. Railway-stop shelters, information boards and lighting will be provided on the platforms. Pedestrians will be able to access the platform via a walkway and stairs. In addition, to facilitate access to the platform for people with disabilities, two passenger lifts will be built as part of the second task.

The project has been divided into five phases with the following milestones:

- design concept: 40 days from the contract signing date;
- development of multi-discipline design documentation: 280 days from the contract signing date, including obtaining all required permits and agreements;
- construction work (platform no. 1 - phase I) - 370 days from the contract signing date;
- construction work (platform no. 2 - phase II) - 460 days from the contract signing date;
- final acceptance and completion of the construction work with the handover of the as-built documentation and use permit to the Client: 501 days from the contract signing date.

Facts and figures in a nutshell:

Project type:	“Construction of a new Izabelów stop on railway line no. 14” under the “Government programme for construction or modernisation of railway stops for 2021-2025” and “Development of lift shafts and passenger lifts at the Izabelów stop on railway line no. 14”
Scope of work:	Design and Build
